## Fulltime Experience

---

### **TEJ Electric Ltd.** – Brampton, ON | Front End Developer | 04/2019 - 06/2020

- Harnessed front-end technologies to envision and create an optimized company website, with a laser focus on enhancing the user experience and ensuring accessibility through expert content optimization.
- Achieved an impressive 12% upsurge in email signups and a substantial increase in lead generation for the business, spearheading the development of a high-converting UI design for a React-based landing page. This initiative resulted in markedly improved website conversion rates, further fueling business growth.

### **DXE Technologies** – Pune, India | Software Engineer | 12/2021 – 12/2022

- Collaborated seamlessly with the development team to architect, code, and deploy web applications using Express.js and Node.js, guaranteeing impeccable functionality, optimal efficiency, and strict adherence to coding standards.
- Proficiently utilized Git for version control, fostering active collaboration within the team to efficiently manage code repositories and ensure seamless code integration throughout the development process.

### **DSG Papers Pvt. Ltd** – Punjab, India | WordPress Developer | 05/2018 – 03/2019

- Innovatively designed and integrated custom plugins to elevate website functionality and enhance the overall user experience, resulting in a 25% increase in user engagement and satisfaction.
- Pioneered the development of a robust product management and tracking system utilizing PHP and JavaScript, enabling in-depth analysis of sales data. This system provided invaluable insights to the business, leading to a 50% boost in sales and informed decision-making.
